Volg Konsumwaren AG in Oberbipp (CH)

The energy-efficient refurbishment was carried out during ongoing operations. In addition to the roof-mounted PV systems, the west side was given a solar facade in the customer color "Volgblau" with standard and reduced-length modules.

7.5 MWh

Energy yield per year

100 kg/year

CO₂ savings based on country-specific emission factors, determined in 2019
