PARKING HOUSE | NEW BUILDING

RWE parking house in Essen (DE)

The use of a simplified substructure makes the realisation of the solar facade on this multi-storey car parking house particularly attractive and is therefore groundbreaking for the further development installation use on industrial facades.

66.84 MWh Energy yield per year

Ø

23,500 kg/year

CO₂ savings based on country-specific emission factors, determined in 2023
